ELECTRICAL NEWS BRIEF

Volume 1, Issue 7

April 5, 2005

New and Improved Permits

As of January 31, 2005 Electrical Permits have been reformatted and are now printed out on a full sheet of paper, they have printed on the bottom **Copy 1 Contractor/Owner, Copy 2 Bureau, and Copy 3 Inspector**. These new permits are needed to be compatible with the on line permitting for Property Owners and Contractors web program being developed.

With the new web program we will see other changes such as contractors ability to look up the status of a permit along with any information attached to that permit. The next page contains a copy of a permit for your review. If you have any questions please call Jeff Fitzloff at (208) 332-8980.
